

Class "D" Utility Annual Rate Adjustment Instructions

DEFINITION OF A CLASS D UTILITY - A public utility that provides retail water or sewer utility service to fewer than 500 taps or active connections is considered a Class D Utility. If a public utility provides both water and sewer utility service, the number of active water connections determines how the utility is classified.

FILING TIMELINES: Applications are submitted based on the last two digits of the applicant's certificate of convenience of necessity (CCN) number. Refer to the table below to determine the submission deadline for your utility. *Regardless of the number of CCNs held by a utility, the utility may adjust its rates using this form not more than once per calendar year and not more than four times between comprehensive rate proceedings. For a Class D utility holding multiple CCNs, the utility may file an application in any quarter for which any of its CCN numbers is eligible.*

Please note: If this is your **fifth consecutive request** for an annual rate adjustment, or if you need a rate increase that is more than 5%, then you will need to file the more detailed application package and notice forms used by Class C utilities.

LAST TWO	QUARTER
00-27	1: January-March
28-54	2: April-June
55-81	3: July-September
82-99	4: October-December

REQUIRED DOCUMENTS FOR FILING:
1 Completed Application
2 Proposed Notice
3 Previously Approved Tariff (rate pages only)

INSTRUCTIONS:

- 1 Use the tabs at the bottom of the worksheet to navigate the application.

- 2 Complete the application by entering information into all unlocked cells on the application tabs; calculations tabs, and the remaining unlocked cells on the notice tabs. Data entry will carry-through to the rest of the application. *Please note incomplete applications will be deemed insufficient for filing.*
- 3 File your application, proposed notice, and previously approved tariff (rate pages only) with the Public Utility Commission of Texas (PUCT).
Do not send notice to your customers or raise rates until you receive approval of the proposed notice from the PUCT.
- 4 The PUCT will review the proposed rate and tariff. Once the rate adjustment is approved, official notice to customers must be provided 30 days prior to your effective date.
- 5 Your effective date will be the date that the water or sewer service price changes, so the first billing reflecting the price change should be approximately 60 days after you provide notice.
The effective date should also be the first date of a billing period, which should correspond to the day of the month when meters are typically read, and the new rates may not apply to service received before the effective date of the new rates.

Class "D" Utility Annual Rate Adjustment Instructions

- 6 Rate applications should be filed per 16 Texas Administrative Code § 22.71(b) and (c). Detailed filing instructions are located at:
<http://www.puc.texas.gov/industry/filings/FilingProceed.aspx>.
- 7 The proposed notice supplied in the rate application contains multiple meter sizes. Please only include rates for meter sizes actually included on the utility's approved tariff. All additional meter sizes listed on the notice should be eliminated from the notice by hiding lines where the non-applicable meter rates are listed. Using the Microsoft Excel spreadsheet select the rows to be removed from the notice. Right click while the rows are still selected and select "HIDE."
- 8 Update the proposed notice and calculation pagination to reflect the correct number of pages applicable to the utility's proposed new rates. Currently, the notice form allows for renumbering of the remaining pages of the notice. Pagination cells are unlocked.
NOTE: If block gallonage or gallonage rates do not apply to your utility, hide the non-applicable lines within the calculation tab.
- 9 For utilities with more than five gallonage blocks, if additional lines need to be inserted on page three, COPY the row above or below the row to be inserted. Right click and select insert. Update the corresponding notice gallonage blocks by repeating the same steps: COPY, right click, and insert a row for the water and sewer notice on pages two and three. Do not copy unrelated rows or insert blank rows since the formulas and links are locked and cannot be added or edited.
NOTE: If additional rows are inserted into the application, additional rows will need to be inserted in the notice.
- 10 Applicants must calculate the billing comparison, which should only include the minimum monthly charge, block gallonage rate, and gallonage rate charges. Do not include other assessments, such as pass-throughs and regulatory assessment fees remitted to the Texas Commission on Environmental Quality (TCEQ), etc.
- 11 If the utility uses the winter months' average method to calculate usage for sewer billing, add the statement below to the notice and detail the months used in the winter months' average calculation. On pages one and three of the notice, the line directly below footnote two is unlocked for the utility's use if applicable.
Gallonage charges are determined based on the average consumption for the winter period, which includes the following 3 months:

ADDITIONAL ASSISTANCE:

For **general questions** about the rate application package, you may call or email the PUCT for assistance. Call 1-512-936-7405 or email water@puc.texas.gov with your general questions. Please also specify what type of assistance is needed: financial or technical, so we can direct your request to the appropriate specialist.

For **extensive requests** for assistance, utility companies (not consultants) may contact the PUCT to request free assistance from a contractor. Please call 1-512-936-7405 or email water@puc.texas.gov to request assistance. In the subject line of your email write, "Request for Contractor Referral." For voice messages, please state you are "requesting assistance with preparing a rate application and need a Contractor Referral."

NOTICE OF APPROVED UTILITY ANNUAL RATE ADJUSTMENT

Utility Name: _____

CCN Number(s): **Water** _____ **Sewer** _____

The rates listed on the next page will apply to service received after the effective date listed on the notice below. This rate was requested by the utility and approved by the Public Utility Commission of Texas based on Texas Water Code § 13.1872, which allows the utility to receive an annual rate adjustment, without a hearing, of no more than 5%.

The following public water system(s), sewer system(s), or subdivision(s) will be affected by this rate adjustment:

Effective Date of Approved Increase: _____
(must be at least 30 days from the date the customers receive notice)

The rate adjustment will apply to all service rendered after the effective date and will be reflected on the bill you receive approximately 30 to 45 days after the effective date.

Address: _____
City: _____
State/Zip: _____
Telephone: _____

Percent of Rate Adjustment: 5.00%¹
