SECTION 1 – INTRODUCTION

The Public Utility Commission of Texas (PUCT or Commission) is issuing a Request for Proposals for an independent wholesale electric market monitor (EMM)¹ for the wholesale electricity market in the Electric Reliability Council of Texas, Inc. (ERCOT) power region from any qualified, interested persons. The EMM, including a director and the staff, must have the qualifications needed to effectively carry out the market monitoring functions prescribed by the Public Utility Regulatory Act (PURA),² and by PUCT Substantive Rules.³ The EMM will contract with both the PUCT and ERCOT, with the PUCT approving, overseeing, and supervising the EMM.

Background Information

PURA § 39.1515(a) charges ERCOT with contracting with an entity selected by the PUCT to act as the PUCT’s wholesale electric market monitor to detect and prevent market power abuse and market manipulation and to recommend measures to enhance the efficiency of the wholesale market. The EMM operates under the supervision and oversight of the PUCT but independently from ERCOT and its market participants.⁴

The EMM will be responsible for monitoring the wholesale electricity market in the ERCOT power region, including all markets for energy, ancillary capacity services, and congestion revenue rights, as well as monitoring all aspects of ERCOT's operations that affect supply, demand, and the efficient functioning of the competitive wholesale electricity market.

SECTION 3 – STATEMENT OF WORK

I. Overview

A. Introduction. Subject to the PUCT’s supervision and oversight, the Contractor will act as the Wholesale Electric Market Monitor (EMM) for the Electric Reliability Council of Texas (ERCOT) power region. Contractor will be responsible for monitoring the wholesale electricity market in the ERCOT power region, including all markets for energy, ancillary capacity services, and congestion revenue rights, and monitoring all aspects of ERCOT’s operations that affect supply, demand, and the efficient functioning of the competitive wholesale electricity market. The amount of work required fluctuates, and Contractor will be required to complete many tasks on an as-needed basis, as described in more detail in this Statement of Work. Estimates provided in this Statement of Work are provided for proposers’ convenience only and are not intended to limit the services Contractor will be expected to provide in any way. The tasks, duties, and responsibilities of the Contractor will include the following:

B. Market Knowledge.

1. Contractor must hire an EMM Director and staff to carry out the day-to-day monitoring functions specified in this Contract.
2. The EMM Director must be knowledgeable and keep that knowledge current regarding market monitoring in a wholesale electricity market.
3. The Contractor, EMM Director, and EMM staff must promptly become familiar with the ERCOT rules procedures, including the Nodal Protocols, Guides, Business Practice Manuals, and Other Binding Documents (together, “Protocols”) and all PUCT rules and Texas statutes relating to the wholesale electricity market, including, but not limited to, wholesale market design and operations, restrictions on the existence and abuse of market power, and market monitoring. The Contractor must also be familiar with the enforcement authority, policies, and procedures of the PUCT.

C. Detection and Prevention of Manipulation and Assessment of Market Power in ERCOT Wholesale Markets. The Contractor must develop and refine tools to gather and analyze information and data as needed for its market monitoring activities and actively monitor the wholesale electricity markets in the ERCOT power region, under the direction of the PUCT, including the following:

1. Continuously monitor the wholesale electric markets through the use of market screens and indices to identify any abnormal wholesale electric market events and potentially anticompetitive behavior;
2. Conduct market power tests, monitor structural indicators of market power, and conduct other analyses related to market power determination;

3. Analyze events that fail the screens and indices, represent potentially anti-competitive behavior, or are considered abnormal wholesale market activity or events through the use of computer simulation and advanced quantitative tools as necessary, and initiate informal discussion of events with PUCT staff and, if appropriate, ERCOT or market participants;
4. Conduct investigations of specific market events when anomalies are discovered and prepare reports to PUCT regarding same; and
5. Coordinate with the PUCT and ERCOT to develop procedures for the coordination of investigative activities among the Contractor, ERCOT, and PUCT.

D. Evaluation of Wholesale Market Operations, Current Protocols and Proposed Changes to the Protocols. The Contractor must continuously evaluate the operation of the wholesale electricity markets and will assist PUCT and, if directed by the PUCT, ERCOT by developing recommendations for enhancing the competitiveness and efficiency of ERCOT-administered markets. The Contractor must:

1. Develop, refine, and regularly monitor market performance measures to evaluate market participants' compliance with ERCOT Protocols;
2. Evaluate whether ERCOT manages the markets it administers in accordance with the Protocols;
3. Assess the effectiveness of ERCOT's management of the energy, ancillary capacity services, and congestion rights markets, and evaluate the effectiveness of congestion management and system operations by ERCOT;
4. Analyze the Protocols and proposed changes to the Protocols to identify potential reliability impacts, opportunities for strategic manipulation, and other economic inefficiencies;
5. Attend ERCOT stakeholder meetings relating to current market issues and changes in market design;
6. Interact with market participants to better understand their operations and market behavior;
7. Recommend measures to enhance market efficiency and improve market design; and
8. Assist the PUCT with development of rule language or Protocols that implement market efficiency or design projects that have been endorsed by the Commission.

- E. Reporting Obligations and Enforcement Support. The PUCT is responsible for enforcement of the laws and rules governing market entities and prosecution of violations, as discussed in further detail below under the headings “PUCT Enforcement Support” and “PUCT Supervision.” Contractor must assist and support the PUCT in its enforcement and prosecution obligations by promptly developing informative reports and supporting PUCT enforcement activities as requested by the contract administrator. As part of this assistance, the Contractor must:
1. Timely and directly report to PUCT commissioners and the PUCT contract administrator any irregular or potentially anti-competitive behavior, including any potential market manipulations, market power abuse, or market power strategies, and any discovered or potential violations of statute, PUCT rules, or ERCOT Protocols;
 2. Submit to the PUCT a monthly report, due on the tenth business day of the following month, a report that evaluates whether any inefficiencies, inappropriate incentives, flaws, or opportunities for manipulation in the market design have been identified by the Contractor in the preceding month. The report may recommend policy changes to correct any flaws or reduce economic inefficiencies, especially if the change would result in a more reliable system;
 3. Submit to the PUCT daily, monthly, and quarterly reports on prices and congestion, abnormal bids and offers, and unusual market or operational behavior. Daily reports are due at the end of the following business day, monthly reports are due on the tenth business day of the following month, and quarterly reports are due on the last business day of the following month.
 4. Submit to the PUCT the following reports:

 - f. Recommend policy or rule changes to correct any flaws or reduce economic inefficiencies, especially if the change would result in a more reliable system; and
 - g. Submit the final draft of the report to the PUCT for review no later than May 1 each year, and contractor must publish

the final draft by May 30;

- i. If Contractor fails to submit the final draft of the annual report to the PUCT for review by May 1, the monthly invoice for services provided in May must be reduced by \$5,000 per day for each day past the deadline until the final draft is submitted.
 - ii. If Contractor fails to publish the report with changes required by the PUCT by May 30, the monthly invoice for services provided in May must be reduced by \$5,000 per day for each day past the deadline until the report is published unless the PUCT contract administrator gives Contractor prior written approval to delay publication, in which case, Contractor must meet the approved deadline for publication or the monthly invoice for the month in which publication is due must be reduced by \$5,000 per day for each day past the revised deadline until the report is published.
 - iii. Parties acknowledge and agree that if the report is delayed, the PUCT will suffer damages that are not easily calculated ahead of time and the \$5,000 per day fee reduction serves as liquidated damages.

review to be reported to the commissioners by February 1, 2024; and

- ii. No later than 90 days after the implementation date of a wholesale market design change, as defined by PUCT staff.
- a. Quarterly Reporting - The EMM must provide a quarterly report to the PUCT contract administrator that addresses investigation and enforcement activities, as well as other projects conducted by the EMM. All services under the contract must be accounted for under this report. The report must be provided in a timely fashion, but in no event later than the end of the quarter following the quarter covered in the report. The report should be separated into two parts—one for investigation and enforcement activities and one for other EMM projects. Investigation and Enforcement Matters Report. Every investigation or enforcement matter involving the EMM must be listed in this portion of the quarterly report. The report should include, at a minimum, the following information for each investigation or enforcement matter:
- i. Internal identification number;
 - ii. Name of each investigation or enforcement activity;
 - iii. PUCT Docket number, if applicable;

 - x. Cumulative hours spent on each other project per quarter.
5. Submit other reports as set forth in PUCT rules or as otherwise requested by the PUCT and communicate regularly with PUCT staff;
- i. If the PUC adopts a reliability program consistent with PURA § 39.1594, the Contractor must:
 - a. Evaluate the incremental reliability benefits of the reliability program for consumers compared to the costs to consumers of the program and the costs in the wholesale electric markets; and
 - b. Report the results of the evaluation to the PUCT and legislature biennially according to rules or procedures adopted by the PUCT once it has determined whether to implement a reliability program under PURA § 39.1594
6. Notify the PUCT contract administrator and executive director of any request to appear or speak before any body or at any conference and the subject matter the EMM is requested to speak about prior to the date of the appearance.
7. 8. Coordinate enforcement activities between the Contractor and the PUCT, including identification of priorities, allocation of resources for investigations, and approval of investigations that require significant

resources in excess of the work covered by the fixed fees under this contract (estimate an average of eight enforcement investigations per year that would involve significant engagement by the EMM);

9. Obtain legal support to inform the EMM's services to the PUCT for enforcement actions in select matters, as directed in writing by the PUCT. This will require, at a minimum, hiring a full-time employee licensed to practice law in the State of Texas;
 10. Inform the PUCT contract administrator of any third-party inquiries concerning enforcement matters; and
 11. Contractor will be PUCT's agent and representative in the matters contemplated under this contract. Therefore, communications between the Contractor, PUCT staff, ERCOT (where appropriate), and other client representatives of PUCT staff made in anticipation of litigation or in furtherance of PUCT staff's enforcement matters are privileged under the Texas Rules of Civil Procedure and the Texas Rules of Evidence. Contractor must maintain confidentiality of all privileged communications.
 12. Contractor must comply with the Texas Open Meetings Act and legal restrictions on ex parte communications in all communications with PUCT commissioners or their advisors.
- B. Transition of Services. This Contract will go into effect December 1, 2023, if the chosen Contractor is other than the incumbent contractor, in order to allow a new contractor to set up systems and processes to begin performing as the EMM on January 1, 2024. Contractor must be prepared to engage in all functions contemplated by the Contract on January 1, 2024. Proposers should include a description of how they will ensure a smooth transition from the current contract to the new contract with no disruption in Services to the PUCT or ERCOT. If the incumbent contractor is not chosen, the PUCT will direct the incumbent contractor to assist with the transition of services during the last month of the incumbent's current contract.
- C. At the end of this contract period, if the contractor will no longer be performing the EMM services under this contract, the contractor will be required to assist in a smooth transition to the next EMM.

II. Performance Benchmarks.

- A. Documentation of EMM Activities. The EMM must assign internal identification numbers to all investigations, enforcement activities, and other projects and matters conducted by the EMM. The EMM must maintain a database of these activities and matters and must provide access to such database to designated PUCT Staff.
- B. Monthly Meeting. EMM staff must meet on a monthly basis with PUCT staff designated by the PUCT contract administrator to review pending matters and

issues relating to the EMM's duties under this contract. Proposers should anticipate one monthly meeting with enforcement staff and a separate monthly meeting with staff from the Market Analysis Division.

- C. Required Duties and Minimum Staffing Level. The EMM must perform all of the duties specified in this Contract. The EMM must establish an office in space provided by ERCOT in its facility in Austin, Texas, with a staff that is sufficient to carry out the day-to-day market monitoring functions and consult with PUCT staff on a regular basis. The Austin staff must consist of at least eight persons who have technical and economic proficiency in the areas of electric generation and transmission, economics, information technology, law, and the analysis of complex transactions, including the interaction between the energy and financial markets. Staffing for legal support must include a full time employee licensed to practice law in the State of Texas. The selection of the EMM Director and the mix of technical expertise prescribed for staffing EMM operations are subject to PUCT approval, and the director may be removed at the request of the PUCT's executive director.

The EMM Director, Deputy Director, or designated liaison of the EMM must spend at least sixteen hours each month at the offices of the PUCT. The PUCT will provide appropriate office space, high-speed internet access, and a parking permit.

EMM staff must comply with the PUCT's Prohibited Technologies policy, which can be found at:

https://www.puc.texas.gov/agency/about/procurement/rfp/puc_prohibited_technologies_policy.pdf.

III. Responsibilities of ERCOT and PUCT

A. ERCOT Support.

1. ERCOT will provide the Contractor with full access to ERCOT's operations centers and ERCOT's records, data, and other information concerning operations, settlement, and reliability. ERCOT is authorized to provide any such information (including without limitation Protected Information or ERCOT Critical Energy Infrastructure Information (ECEII) as defined under ERCOT Protocols) to Contractor as PUCT's agent and designee in matters relating to the subject matter of this contract.
2. ERCOT will provide office and conference space at its Austin, Texas facility equipped with standard office furniture and equipment (fax, printer, and copier) and telephones (land lines), and high-speed internet access. Computers for use by the Contractor's staff located in the ERCOT facility will be provided by ERCOT; computers for use by staff working in other locations must be provided by the Contractor. In addition, the Contractor will have occasional access to other ERCOT conference rooms and copiers, as needed.
3. ERCOT will provide other support and cooperation necessary for the

Contractor to perform its functions, including all support and cooperation which is determined appropriate by the PUCT.

4. ERCOT will be PUCT's agent and representative in the matters contemplated under this contract, except with regard to the EMM's duties monitoring ERCOT's performance. Therefore, communications between the Contractor, PUCT staff, ERCOT, and other client representatives of PUCT staff made in anticipation of litigation or in furtherance of PUCT staff's enforcement matters are privileged under the Texas Rules of Civil Procedure and the Texas Rules of Evidence. ERCOT must maintain confidentiality of all privileged communications.

B. PUCT Enforcement Support. The PUCT is responsible for enforcement activities and has a legal staff that will prosecute enforcement proceedings. The PUCT will also provide a contract administrator to the Contractor to coordinate investigation and enforcement activities and evaluate whether enforcement is appropriate, based on reports provided by the Contractor. The PUCT will also provide staff to evaluate the penalties that are appropriate for violations of PUCT or market rules and testify on this matter.

C. PUCT Supervision.

1. The Contractor's activities will be subject to the supervision and oversight of the PUCT.
2. The PUCT may periodically review the performance of the Contractor under the Contract to assess whether the Contractor is meeting the requirements of the Contract and providing diligent and professional services under the Contract. The PUCT must provide the Contractor a written report of the conclusions it reaches in any such review. If, in the PUCT's sole judgment, the Contractor's performance has not been adequate, it may direct the Contractor to replace the EMM Director.

IV. Cost of Services

A. Fixed Fee. Contractor will perform the services described in this Contract for an annual Fixed Fee, paid in arrears, in monthly installments, according to a fixed fee schedule. Proposers must use the table below to structure their proposed fee.

Evaluation team members will score each proposal individually based on the factors of Proposal Substance and Competence and Knowledge, described under Section 4.C. of this RFP, Evaluation Criteria. Maximum point values will be assigned to each scoring factor according to the percentage of weight given to that factor and evaluators will assign a point value up to the maximum allowed for each factor. The purchaser will calculate scoring for compensation. The compensation score will be calculated using the following formula: $\text{Compensation Score} = (\text{Lowest Price} / \text{Price of Response Being Evaluated})$ multiplied by the Maximum Number of Available Points for Compensation. Evaluation team members will not have access to compensation information while they are reviewing and scoring the proposals.

5.E.2. After individual scoring, the evaluation team will email their scoring sheets to the purchaser. The purchaser will review the individual scoring sheets and compile a summary scoring sheet combining all evaluation team scoring and including the compensation scoring to calculate overall scores.

5.E.3. After overall scores are calculated, the evaluation team, with guidance from the purchaser, will then take one of the following actions: recommend selection of a specific

proposer, gather more information before selecting a specific proposer; or recommend that the RFP be withdrawn or reposted.

5.E.4. If the evaluation team needs more information to make a decision, the PUCT may request any of the following from one or more proposers: additional information or clarification, an oral presentation, or a best and final offer. Additional information, clarification, oral presentations or best and final offers will be used to re-score proposals, based on the same criteria used to score the initial proposals, unless different criteria is specified by the purchaser when the additional information is requested.

5.E.5. The PUCT may require selected proposers to participate in conference calls, attend meetings in Austin, Texas, give presentations, or participate in all these activities to provide additional information about their proposals. Any cost associated with any such call, meeting, or presentation will be borne solely by the proposer.

5.E.6. If clarification, presentations, or best and final offers are requested, the evaluation team may request the clarification, presentations, or best and final offers from the top-ranked proposer or proposers only, or all of the proposers, at the discretion of the evaluation team.

5.E.7. Final recommendations will be presented to the Executive Director of the PUCT. The Executive Director may do one of the following: approve the recommended selection in whole or in part; disapprove the recommendation; or defer action on the selection.

5.E.8. The PUCT will begin contract negotiations shortly after the Executive Director approves a recommendation to select a specific proposer. The PUCT may negotiate all portions of any proposal, including, but not limited to: the proposed fee, a final schedule for performance to be incorporated into the contract, and any terms of the contract.

5.E.9. The PUCT will notify each proposer of the final action taken upon execution of the contract with the selected proposer.

5.E.10. No questions about the status of the proposals will be answered while proposals are under evaluation.

5.E.11. The PUCT may reject any and all proposals, amend this RFP, or cancel this RFP at any time. After the proposal due date, the PUCT will only notify proposers who submitted a proposal prior to the proposal submission deadline of amendments to the RFP.

SECTION 6 – REQUIRED COMPONENTS AND FORMAT

6.A. Components

Proposals must include all required attachments and certifications. The PUCT will not accept attachments or certifications submitted after the proposal deadline. Proposals that do not include all required information will be considered non-responsive and will be disqualified.

Proposals must include the contents described in 6.A.1 through 6.A.10 with each section clearly defined on a table of contents page.

6.A.1. Statement of the Requirements

In this section, each proposer must succinctly state its understanding of the RFP's requirements and describe how it would perform the tasks described in Section 3, Statement of Work.

6.A.2. Competence and Knowledge

Each proposer must provide a detailed work plan to demonstrate how it intends to fulfil the requirements identified in Section 3, Statement of Work. The proposal must include an organizational chart identifying functions and reporting relationships of the personnel who will be assigned to this work. The proposer should also describe any prior experience proposer's organization has in providing similar services.

6.A.3. Qualifications

For each person a proposer identifies to perform the work described in this RFP, the proposer must provide a detailed resume that describes the services they would perform, their qualifications, and their experience.

6.A.4. Compensation

Each proposer must propose pricing to provide the services identified in Section 3, Statement of Work.

Compensation for the services identified in Section 3, Statement of Work must be proposed as a firm fixed price.

Unless otherwise approved in writing by the PUCT, payments will be made based upon the invoicing and payment terms of the resulting contract. The PUCT will not reimburse any out-of-pocket expenses or expenses not contemplated at the time of contract execution.

Proposer must demonstrate how elements of the price correspond to elements of the proposed work plan.

6.A.5. References

Each proposer must provide at least three references. Proposers must include a phone number and email address for each reference.

The PUCT prefers references from clients for whom the proposer has performed similar work, including other state commissions or boards.

Proposers must not use the PUCT or any individuals employed by the PUCT as a reference.

6.A.6. Conflicts Statement

Proposers must be neutral and impartial, must not be an entity that has a specific interest in the PUCT's regulation, and must not have a direct financial interest in the provision of electric, telephone, water, or sewer service in the state of Texas.

Proposers having a conflict of interest, as determined by the PUCT will not be eligible for contract award. Proposers may also be disqualified if there are facts that would create an appearance of impropriety, even if no actual conflict exists.

The PUCT will determine whether a conflict of interest or an appearance of impropriety exists from the perspective of a reasonable person uninvolved in the matters covered by the resulting contract. The PUCT is the sole arbiter of whether a conflict or an appearance of impropriety exists.

The requirements for the conflicts statement are as follows:

- It must be **signed and notarized** by the highest-ranking officer of proposer's entity having responsibility for vetting corporate conflicts of interest.
- It must identify any personal or business relationships of proposers, including all employees and subcontractors of proposers, with: any electric, telecommunications, water, or sewer utility, or any utility affiliate operating in Texas; and any entity having a pending application at the PUCT to enter the Texas retail electric market, telecommunications market, water utility market, or sewer utility market; And any entity likely to have a direct interest or be a participant in the anticipated change-in-control proceedings that are the subject of this RFP. It must identify the extent, nature, and time aspects of those relationships.
- If a proposer does not have any known or potential conflict of interest or appearance of impropriety, the conflicts statement must include a statement that there is no known or potential conflict of interest or appearance of impropriety. Failure to provide either a statement describing potential conflicts of interest or appearances of impropriety or a statement that no potential conflict or appearance of impropriety exists will automatically disqualify the proposer.
- The conflicts statement must address how the proposer intends to address any known conflicts of interest or appearance of impropriety.
- The conflicts statement must address how the proposer intends to ensure that no interest may arise as a result of its activities or those of its parent, affiliate, or other related entity that will conflict with the proposer's duty should it be selected to provide the services described in Section 3, Statement of Work.
- The conflicts statement must identify a proposer's lobbyists who are registered or required to register with the Texas Ethics Commission and their compensation. The conflicts statement must also describe any involvement the proposer's lobbyists will have in connection with this engagement or electric utility, telecommunication utility, water utility, or sewer utility legislation or policy.
- The conflicts statement must identify any owner, executive, board member, employee, or subcontractor of proposer who has been employed by the PUCT or another state agency in Texas fewer than four years ago. If any individual is identified under this provision, the conflicts statement must disclose: 1) the former PUCT or state agency employee's name and current position with proposer; 2) the name of the state agency; 3) the nature of the previous employment with the state agency; and 4) the dates the employment ended with the state agency and began with proposer. The PUCT is restricted in its ability to

enter into contracts with individuals and entities that employ these individuals under some circumstances. *See* Texas Government Code Section 669.003.

- The conflicts statement must certify either that the proposer does not employ an individual who has been employed by the PUCT or another agency of the State of Texas at any time during the two years preceding the submission of the proposal or that it has disclosed in its proposal the following: (i) the nature of the previous employment with the PUCT or the other agency; (ii) the date the employment was terminated; and (iii) the annual rate of compensation for the employment at the time of its termination. The PUCT is restricted in its ability to enter into contracts with individuals and entities that employ certain individuals under some circumstances. *See* Texas Government Code Sections 2254.033 and 2252.901.
- If the circumstances described by a proposer change or additional information is obtained subsequent to the submission of proposals, the proposer must supplement its conflicts statement as soon as reasonably possible upon learning of any change to their statement. If a supplement to the conflicts statement is required after the deadline for submission of proposals, the supplement is exempt from the requirement that all proposal documents must be submitted before the deadline in order for the proposal to be considered.
- The PUCT encourages proposers to provide complete disclosure of any matters that might be considered a conflict of interest or appearance of impropriety. The PUCT may consider completeness of disclosure in evaluating whether a conflict of interest or an appearance of impropriety exists.

6.A.7. Historically Underutilized Business (HUB) Certification and HUB Subcontracting Plan (HSP)

Any proposer that is HUB certified by the Statewide Procurement Division (SPD) of the Comptroller of Public Accounts (CPA) or one of its predecessors must submit a copy of its HUB certificate.

Additionally, the PUCT has determined that subcontracting opportunities may be available under this contract. Therefore, all proposers, including State of Texas certified HUBs, must complete and submit a State of Texas HSP with their proposal if the total dollar amount of the proposal response is \$100,000 or more.

Proposers can find HSP forms and instructions on the Texas CPA website at: <https://comptroller.texas.gov/purchasing/vendor/hub/forms.php>

Responses that do not include a completed HSP will be rejected as required by Texas Government Code Section 2161.252(b).

6.A.8. Certifications

Each proposal must contain a signed statement with the following certifications:

- The proposer has made a good faith effort to ensure all statements and information proposer submitted in response to this RFP are current, complete, and accurate. The

proposer represents and warrants that all statements and information prepared and submitted in this document are current, complete, true, and accurate. Submitting a proposal with a false statement or making material misrepresentations during the performance of a contract is a material breach of contract and may void the submitted response and any resulting contract.

- The proposer is in compliance with Texas Government Code Section 669.003, relating to contracting with the current or former executive head of a state agency.
- Under Texas Government Code Section 2155.006 and 2261.053, the proposer certifies that the individual or business entity named in this proposal is not ineligible to receive the specified contract and acknowledges that any contract may be terminated and payment withheld if this certification is inaccurate.

- Under Texas Family Code Section 231.006, the proposer certifies that the individual or business entity named in this proposal is not ineligible to receive payment under the

- If a proposer includes a Texas address in its proposal, the proposer must certify whether or not it qualifies as a Texas Resident Bidder, as defined in Texas Administrative Code, Title 34, Part 1, Chapter 20.
- Proposer represents and warrants that it is not aware of any court or government agency actions, proceedings or investigations pending or threatened against proposer or any of the individuals or entities included in the response within the five calendar years immediately preceding the submission of the proposal that would or could impair respondent's performance under the contract, relate to the solicited or similar goods or services, or otherwise be relevant to the PUCT's consideration of the proposal. If proposer is unable to make the preceding representation and warranty, then proposer instead represents and warrants that it has included as a detailed attachment in its proposal a complete disclosure of any such court or governmental agency actions, proceedings or investigations. In addition, proposer represents and warrants that it will notify the PUCT in writing within five business days of any changes to the representations or warranties in this clause and understands that failure to timely update the PUCT may result in the proposer's disqualification at the PUCT's sole discretion, or if during the performance of the contract, will constitute a breach of contract and may result in immediate termination of the contract for cause at the PUCT's sole discretion.

6.A.9. Evidence of Financial Capability

Proposer must provide evidence of financial capability. The preferred evidence of financial capability is an audited financial statement, if proposer has a current audited financial statement available or if it is practicable to obtain one for the proposal. If no audited financial statement is available, proposer must demonstrate its financial capability in whatever manner it deems appropriate. Evidence of financial capability will be considered in evaluating the competence of the proposer.

6.A.10. Other Required Items

FEDERAL PRIVACY ACT NOTICE: This notice is given pursuant to the Federal Privacy Act. Disclosure of each applicable SSN is required under Texas Family Code Sections 231.006(c) and 231.302(c)(2). The SSN will be used to identify persons that may owe child support. The SSN will be kept confidential to the fullest extent allowed under Texas Family Code Section 231.302(e).**6.B. Format Requirements**

6.B.1. Information Sheet – The first page of the proposal submission must be an information sheet that clearly states: the name of the proposer, the name address, and telephone number of the proposer’s point of contact, the project number, and the RFP title and number. The information sheet will be the only portion of the proposal that is not filed under seal. Information sheets must be filed publicly in Project No. 55222.

6.B.2 Copies and Price Information – Proposers must submit four versions of their proposals: one PDF and one Word version with the compensation component, and one PDF and one Word version without the compensation component. The PDF copy with the compensation component must be clearly marked “Original” and include all required signatures and notarized statements.

Price information must be excluded from one PDF and one Word version. This requirement is to allow the evaluation team to review proposals for the evaluation factors of Proposal Substance and Competence and Knowledge only. Each proposal will separately be given a score for pricing and that score will be applied to the scoring matrix to ensure that price does not inadvertently influence the evaluation of the other factors.

The copies of the proposal must be identical to the original except for the omission or redaction of the price information and the Word rather than PDF file format.

6.B.3. Proposers are prohibited from using the Texas State Seal or the PUCT Seal in or on the proposal.

6.B.4. Proposals must not contain any extrinsic items, such as promotional items or other things not contemplated in this Request for Proposals.

6.B.5. Page Limit – Proposals must be limited to 75 pages, including all attachments and certifications, but excluding financial capability submittal, page dividers or writing sample. The PUCT may reject any proposals longer than 75 pages without review. In any case, evaluation team members will not be provided any pages past the 75th page.

SECTION 7 – CONDITIONS

7.A. Irrevocable Offer

Proposals may be withdrawn in writing before the deadline for receipt of proposals. After the deadline, a proposal becomes an irrevocable offer to provide the services described in Section 3, Statement of Work, with the terms and conditions specified in Attachment A, for the shorter of: a period of 90 days from the RFP closing date or until a contract resulting from this RFP is signed. The PUCT will not return withdrawn proposals.

7.B. Proposals are the Property of the PUCT

All proposals and copies of proposals, as well as any best and final offer, and any records provided to the PUCT by the proposer associated with the evaluation of the proposal, will become the property of the PUCT after receipt and will be retained in accordance with the PUCT's records retention schedule.

7.C. Public Information Act Notice

Following the award of a contract, all proposals are public information and subject to release. If the PUCT receives a request for any information submitted to the PUCT in connection with this RFP, the PUCT will follow the requirements of the Texas Public Information Act (Texas Government Code Chapter 552). This includes notifying proposers and the Office of the Attorney General if information that the PUCT knows proposer considers to be confidential is requested under the Texas Public Information Act. The PUCT assumes no obligation to assert legal arguments on behalf of a proposer. The PUCT may release portions of proposals and other information provided by a proposer without notifying the proposer if the information is not conspicuously marked "confidential" on each page.

A copy of the contract resulting from this RFP will be posted on the PUCT's public website. Information in PUCT contracts is public information unless it is made confidential by law. *See* Texas Government Code Section 552.022(a)(3).

7.D. Publicity

Proposers are prohibited from making any public disclosures or news releases pertaining to this RFP, any resulting contract, or any results or findings based on information provided or obtained to fulfill the requirements of this RFP or resulting contract. This prohibition may only be waived by prior written approval of the PUCT for the specific disclosure or news release.

7.E. No Proposal Costs Reimbursed

Neither the PUCT nor the State of Texas will reimburse any proposer for any costs related to: preparing a response to this RFP, preparing a best and final offer, providing additional information requested as part of the evaluation of proposals, or making any presentation requested as part of the evaluation of proposals.

7.F. Contract Terms and Conditions

Any contract resulting from this RFP will use the standard general terms and conditions found in Attachment A to this RFP unless changes are negotiated in advance. Many of the terms and conditions are required by law and the PUCT will not negotiate when a term or condition is required by law. Proposers must include any requested changes to the terms and conditions in their proposals.

7.G. Vendor Performance Tracking System

At the end of any contract resulting from this RFP, the PUCT will input required information into the Vendor Performance Tracking System regarding the contractor's performance and whether the contractor satisfied the best value standard for this contract. This information is public and other state agencies seeking goods or services are required, under most circumstances, to use the information in the Vendor Performance Tracking System to determine whether or not a particular vendor will meet the best value standard for the purchase of the goods or services.

Year 1	December 1, 2023⁶ – December 31, 2024	\$	\$
Year 2	January 1, 2025 – December 31, 2025	\$	\$

⁶ If the chosen proposer is the incumbent Contractor, Year 1 will start January 1, 2024.

Year 3	January 1, 2026 – December 31, 2026	\$	\$
Year 4	January 1, 2027 – December 31, 2027	\$	\$

If Contractor believes that changes in the scope of Services to be performed will require Contractor to increase its fee, it must request the PUCT’s written authorization to increase its fee. Contractor must document the changes in the scope of Services and why they will require additional effort. The PUCT must approve the increase in fee by written amendment to this contract before Contractor performs any Services or may invoice the increased fee.

2.2 Payment Process. Contractor must submit an invoice to the PUCT contract administrator with a copy to the ERCOT contract administrator no later than the 15th business day after the month that all the Services have been performed and completed. The invoice must contain the name of the person performing Services and a brief description of work performed, including a description of any applicable deadlines for deliverables during the period invoiced the date those deliverables were provided to the PUCT. No payment will be made for administrative overhead, overtime, or other charges not directly attributable to the performance of this contract.

On the statement or invoice, Contractor must include a statement that the invoice accurately describes the Services performed and the Services were performed in compliance with the contract. The statement or invoice must include the vendor identification number issued by the Texas Comptroller or Contractor’s federal taxpayer identification number, a description of the Services provided, and the name and division of the PUCT contract administrator.

Contractor must submit the invoice to the PUCT as follows:

By email to: Payables@puc.texas.gov

Or by mail to: Accounts Payable
Public Utility Commission of Texas
P.O. Box 13326
Austin, TX 78711-3326

Within five business days of receiving the invoice, the PUCT contract administrator will review the invoice and any other relevant documentation to ensure the Services were performed in compliance with the contract. If the invoice does not contain required information or documentation, or if the PUCT disputes that the Services were performed in compliance with the contract, the PUCT will reject the invoice and give the contractor its reasons and the opportunity to submit a corrected invoice.

Upon approval of the invoice, the PUCT contract administrator will notify the contractor and submit the invoice to ERCOT for payment. ERCOT must pay all PUCT approved and undisputed amounts within thirty days of initial receipt of Contractor’s invoice from Contractor.

2.3 Release of Claims. Contractor's acceptance of payment releases the PUCT and ERCOT of all claims for compensation owed in connection with this contract.

2.4 Refund. Contractor will promptly refund or credit within thirty calendar days any funds erroneously paid by ERCOT which are not expressly authorized under the contract.

2.5 Payments Made to Subcontractors. Contractor must pay any subcontractor hereunder the appropriate share of payments received not later than the 10th day after the date Contractor receives the payment. The subcontractor's payment is overdue on the 11th day after the date Contractor receives the payment. The PUCT must approve Contractor's use of any subcontractor before Contractor engages the subcontractor (see Section 5.1 of this contract).

2.6 Records. Contractor and its subcontractors, if any, must maintain records and books of account relating to Services provided under this contract. Contractor must, for a period of seven (7) years following the expiration or termination of this contract, maintain its records (electronic and paper) of the work performed under this contract. Records include, but are not limited to correspondence concerning the subject of this contract between Contractor and the PUCT or ERCOT; Contractor's internal correspondence; and correspondence between Contractor and any third party. Contractor must make all records that support the performance of Services and payment available to any of the following PUCT, ERCOT, PUCT's or ERCOT's designees, or the State Auditor during normal business hours with reasonable notice, upon the request of the PUCT contract administrator or the ERCOT contract administrator.

2.7 Sole Compensation. Payments under this Article are Contractor's sole compensation under this contract. Contractor must not incur expenses not contemplated under the Statement of Work, with the expectation that ERCOT, the PUCT or any other agency of the state of Texas will pay the expense.

Article 3. CONTRACT ADMINISTRATION

3.1 PUCT Contract Administration. The PUCT designates Barksdale English to serve as its primary point of contact and contract administrator throughout the term of this contract. Contractor and ERCOT acknowledge that the PUCT contract administrator does not have any authority to amend this contract on behalf of the PUCT, except as expressly provided herein. Contractor and ERCOT further acknowledge that such authority is exclusively held by the Commission exercising its authority through a vote in an open meeting, or the Executive Director of the PUCT as the Commission's authorized designee. The Executive Director may only agree to amendments that are not a substantial modification of the contract (for example a change in contract administrator or contact information for notices).

3.2 ERCOT Contract Administration. ERCOT designates [NAME] to serve as its primary point of contact and contract administrator throughout the term of this contract. Contractor and the PUCT acknowledge that the ERCOT contract administrator does not have any authority to amend this contract on behalf of ERCOT, except as expressly provided herein. 3.5 Cooperation. The Parties' contract administrators must handle all communications between them in a timely and cooperative manner. The Parties must timely notify each other by email or other written communication of any change in designee or contact information.

3.6 Inquiries and Prompt Referral. Contractor understands that the PUCT does not endorse any vendor, commodity, or service. Contractor, its employees, representatives, other agents, or subcontractors may not issue any media release, advertisement, publication, or public pronouncement which pertains to this contract or the Services or project to which this contract relates or which mentions the PUCT without the prior approval of the PUCT. Contractor will promptly refer all inquiries regarding this contract received from state legislators, other public officials, the media, or anyone else not a Party to this contract to the PUCT contract administrator.

Article 4. REPORTS AND RECORDS

4.1 Written Reports. Contractor will provide written reports to the PUCT in the form and with the frequency specified in the Statement of Work, or as otherwise agreed in writing between the Parties.

4.2 Distribution of Consultant Reports. Contractor agrees the PUCT has the right to distribute any consultant report associated with this contract, or to allow another Texas state agency or the Texas legislature to distribute it. The PUCT will also have the right to post any consultant report associated with this contract to the PUCT's website or to the website of a standing committee of the legislature. This provision does not waive any right to confidentiality that the PUCT may assert for the report or any portion thereof.

Article 5. SUBCONTRACTING PARTIES

5.1 Use of Subcontractors. The Parties acknowledge and agree that, at the time of execution of this contract, Contractor intends to perform the Services required under this Contract using its own employees [or intends to perform the Services required under this Contract using the following subcontractors:]. Contractor will notify the PUCT contract administrator of any other proposed subcontract and will work with the PUCT HUB Coordinator to procure such other subcontractor and to submit appropriate subcontractor selection documentation for approval prior to engaging any other subcontractor, such approval not to be unreasonably withheld. Any subcontract not contemplated at the initiation of this contract and any subsequent substitution of a subcontractor must be approved by an amendment according to the terms of Article 7.

5.2 Sole Responsibility. Contractor is solely responsible for the quality and timeliness of the work produced by all subcontractors that Contractor may engage to provide Services hereunder

and for the timely payment for all work produced by all subcontractors that the PUCT accepts and ERCOT pays for in accordance with the terms of this contract.

5.3 Prime Vendor Contract. The Parties expressly agree that this Contract is intended to constitute a prime vendor contract, with Contractor serving as the prime vendor for delivery of the Services made the subject hereof. Contractor acknowledges and agrees that it is fully liable and responsible for timely, complete delivery of the Services described in this Contract, notwithstanding the engagement of any subcontractor to perform an obligation under this Contract.

Article 6. TERM AND TERMINATION

6.1 Term. The term of this Contract will begin on [] and will continue in effect until December 31, 2027 unless sooner terminated under Sections 6.2 or 6.3 of this Contract.

6.2 Termination for Cause by the PUCT. If Contractor fails to provide the goods or services contracted for according to the provisions of the contract, or fails to comply with any terms or conditions of the Contract, the PUCT may serve upon Contractor written notice requiring Contractor to cure such default. Unless within thirty (30) days after receipt of said notice by Contractor, said default is corrected or arrangements satisfactory to the PUCT, as applicable, for correcting the default have been made by Contractor, the PUCT may terminate this contract for default and will have all rights and remedies provided by law and under this contract. If the PUCT terminates Contractor for a violation of Section 18.12, of this contract, the PUCT need not provide any notice or opportunity for curing the default. The PUCT will not be liable for any damages or loss to Contractor as a result of termination for convenience.

6.3 Termination for the Convenience of the PUCT. The PUCT may, upon thirty (30) days written notice to Contractor, terminate this contract whenever the interests of the PUCT so require. The PUCT will only reimburse those expenses already incurred at the time the notice is provided or expenses approved in writing, prior to Contractor incurring those expenses, for the purpose of wrapping up the contract. The PUCT will not be liable for any damages or loss to Contractor as a result of termination for convenience.

6.4 Transfer of Duties. In the event of termination, Contractor will provide reasonable cooperation to transfer its duties under the contract to another entity without disruption to the provision of Services.

6.5 Remedies for Breach. All remedies available to the PUCT for breach or anticipatory breach of this contract by Contractor are cumulative and may be exercised concurrently or separately, and the exercise of any one remedy will not be deemed an election of such remedy to the exclusion of other remedies. Actual damages, liquidated damages, cost projections, letter of credit proceeds, and injunctive relief may also be invoked either separately or combined with any other remedy in accordance with applicable law.

6.6 Survival. In the event that this Contract expires or is terminated pursuant to its terms, the rights and obligations of the Parties under it will end; provided that the provisions of Sections 2.3

Article 21. ORDER OF PRECEDENCE

In the event of conflicts or inconsistencies between the provisions of this contract and any attachment(s) and exhibit(s), the following are given preference in the order listed below:

- 1) The terms and conditions of this contract;
- 2) The Statement of Work, including any exhibits;
- 3) The Request for Proposals;
- 4) The Contractor's proposal.

Article 22. FORCE MAJEURE

Neither the PUCT nor Contractor nor ERCOT will be considered in default in the performance of its obligations under this contract to the extent that the performance of such obligations is prevented or delayed by any cause beyond the reasonable control of the affected party, which such party could not, by due diligence have avoided, including but not limited to acts of God, severe weather, explosions, riots, acts of war, or orders of legal authority. Such causes will not relieve either party of liability in the event of its failure to use due diligence to remedy the situation and remove the cause in an adequate manner, with all reasonable dispatch, and to give notice and full particulars of the same in writing to the other party as soon as possible after the occurrence of the cause that prevented or delayed performance of the obligations. If the event of Force Majeure continues for a period of more than one hundred and eighty (180) days, either party thereafter may terminate this contract upon giving at least ten (10) days prior written notice to the other party.

Article 23. SEVERABILITY

If any provision of this contract is held unlawful or otherwise unenforceable, that provision will be severed and deemed deleted and the remainder of this contract will continue in full force and effect, as if the provision had never existed.

Article 24. FUNDING OUT CLAUSE

This contract is contingent upon the continued availability of funding. If funds become unavailable through lack of appropriations, legislative or executive budget cuts, amendment of the Appropriations Act, state agency consolidations, or any other disruptions of current appropriations, provisions of Section 6.3 of this contract will apply. Any contract resulting from this solicitation is contingent upon the continued availability of lawful appropriations by the Texas Legislature. See Texas Constitution, Article III Section 49, State Debts; and Texas General Appropriations Act for the 2022-2023 Biennium, Article IX, Section 6.03, Excess Obligations Prohibited.

Article 25. DRUG FREE WORKPLACE POLICY

Contractor must maintain a drug-free work environment policy. Contractor must enforce its drug-free work environment policy during the pendency of this contract. Contractor must provide the PUCT a copy of its drug-free work environment policy upon request.

Article 26. SUBSTITUTIONS

Substitutions are not permitted without written approval of the PUCT and ERCOT.

Article 27. RIGHT TO AUDIT

Pursuant to Section 2262.003 of the Texas Government Code, the State Auditor may conduct an audit or investigation of Contractor or any other entity or person receiving funds from the state directly under this Contract or indirectly through a subcontract under this contract. The acceptance of funds by Contractor or any other entity or person directly under this contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or

investigation in connection with those funds. Under the direction of the legislative audit committee, Contractor or any other entity that is the subject of an audit or investigation by the state auditor must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through the vendor and the requirement to cooperate is included in any subcontract awards.

Article 28. SIGNATORIES

The undersigned signatories represent and warrant that they have full authority to enter into this contract on behalf of the respective parties.

Article 29. ENTIRE AGREEMENT

This contract, including the Statement of Work, constitutes the entire agreement and understanding between the parties with regard to its subject matter and supersedes and merges all prior discussions, writings, negotiations, understandings, and agreements concerning the provision of these Services. Any terms and conditions attached to a solicitation will not be considered unless incorporated into this contract by specific reference.

In WITNESS WHEREOF both parties by their duly authorized representatives have executed this contract effective as of [DATE].

All Individuals will execute such updated agreements as are reasonably requested by ERCOT.

2. CONFIDENTIALITY

2.1 Exchange of Confidential Information

For the purposes of this Agreement, the Parties will be exchanging certain Confidential Information, as defined in Section 5.2.A below (i.e., the "Disclosing Party" provides Confidential Information to the "Receiving Party").

2.2 Confidential Information

- A. "Confidential Information" is information that by its nature or purpose would reasonably be considered by a person to be confidential, proprietary, or trade secret information and specifically includes, but is not limited to, anything designated as Protected Information or ERCOT Critical Energy Infrastructure Information under the ERCOT Protocols. Confidential Information also includes all information, technical

data, and know-how that relates to the business, services, or products of Disclosing Party, or Disclosing Party's Market Participants (as defined below), customers, or other vendors, including without limitation, any research, products, services, developments, inventions, processes, techniques, designs, and scientific, technical, engineering, distribution, marketing, financial, merchandising, pricing, and sales information that is disclosed to Receiving Party directly or indirectly in writing, electronically, orally, by drawings, or through inspection. A "Market Participant" is an entity other than ERCOT that engages in any activity that is in whole or in part the subject of the ERCOT Nodal Protocols, regardless of whether it has signed an agreement with ERCOT, as further described in the ERCOT Nodal Protocols, which may be found on ERCOT's website at www.ercot.com.

- B. Reserved.
- C. Confidential Information does not include information, technical data, or know-how that:
 - 1. is already published or available to the public, or subsequently becomes available, other than by a breach of this Agreement;
 - 2. is received from a third party without Receiving Party's knowledge of any obligation of confidentiality;
 - 3. is independently developed by personnel or agents of Receiving Party without reliance on the Confidential Information; or
 - 4. is proven by written evidence to be known to Receiving Party at the time of disclosure.

2.3 Precautions Taken to Protect Confidential Information

- A. Receiving Party agrees not to disclose or use the Confidential Information for any purposes other than those under this Agreement.
- B. Receiving Party will ensure policies and procedures are in place to securely maintain Confidential Information at all times and to reasonably restrict distribution to employees, representatives, or agents of Receiving Party necessary to perform a purpose permitted under this Agreement.
- C. Confidential Information and all copies are and will remain the property of Disclosing Party.
- D. Except as to Confidential Information that also makes up a part of Products or Documentation, upon request of Disclosing Party or immediately upon termination of this Agreement Receiving Party will promptly return to Disclosing Party all Confidential Information via bonded courier or some other similarly secure means agreed upon in advance, or destroy all Confidential Information using a destruction method that ensures such data is unrecoverable and providing documentation to Disclosing Party detailing the destruction method and process used, provided that each Party may keep a copy of this Agreement.
- E. Receiving Party agrees to immediately notify Disclosing Party upon discovery of any unauthorized use or disclosure of Confidential Information, and to cooperate in any reasonable way to help Disclosing Party regain possession of the Confidential Information and prevent further unauthorized use or disclosure.
- F. If Receiving Party is required by an order, rule, or law of any federal, state, local, or municipal body having jurisdiction over a Party to disclose any Confidential Information, Receiving Party will provide Disclosing Party notice, to the extent reasonably possible, of such requirements so that Disclosing Party may seek, at Disclosing Party's expense, to limit production. If Receiving Party remains legally

compelled to make such disclosure, it will: (i) only disclose that portion of the Confidential Information that it is required to disclose; and (ii) use reasonable efforts to ensure that such Confidential Information is afforded confidential treatment.

2.4 Loopholes

- A. Contractor recognizes that by performing Services under this Agreement, Contractor may become aware of methods by which Market Participants could manipulate or “game” the ERCOT system ("Loopholes") and thereby take unethical advantage of the ERCOT system.
- B. Contractor agrees that to the extent Contractor becomes aware of such information, it will promptly notify a member of ERCOT management of the existence of such Loopholes and that it will treat such information as Confidential Information.

2.5 Notwithstanding anything to the contrary in this Agreement, no Individual or Party will be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that is made (A) in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney, and solely for the purpose of reporting or investigating a suspected violation of law; or (B) in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. An Individual who files a lawsuit for retaliation by a Party for reporting a suspected violation of law may disclose the trade secret to his or her attorney and use the trade secret information in the court proceeding, if the Individual (A) files any document containing the trade secret under seal; and (B) does not disclose the trade secret, except pursuant to court order.

3. CYBER SECURITY

- 3.1 Prior to performing Services, Contractor will provide summary documentation of its system security, including the standards, practices, training programs, and development environment used to create or modify any deliverables. If applicable, Contractor will document how it addresses and prevents introduction of malicious code during development and delivery of software included with deliverables. Contractor will document how the most critical security weaknesses are being addressed.
- 3.2 During or after performance of services or transfer of any deliverables, and upon Contractor identifying any known vulnerabilities or breaches of system security, Contractor will notify ERCOT (a) within 24 hours of such breaches involving services, deliverables, and/or software provided to ERCOT or (b) within three (3) calendar days of any other breaches of Contractor’s system security. Within seven (7) calendar days of any such breach, Contractor will provide follow-up documentation to ERCOT that will include a description of the breach, potential security impact, and recommended corrective actions to be taken by ERCOT and Contractor. Contractor will continue to report to ERCOT on a schedule approved by ERCOT until a root cause analysis and forensic investigation to determine the full impact have been completed or exhausted.
- 3.3 Contractor will notify ERCOT immediately upon resignation, termination, or reassignment of any Individuals requiring Access Privileges.
- 3.4 Contractor will transfer any deliverables only through secure channels approved in advance by ERCOT and the PUCT. ERCOT may require Contractor to specify how digital delivery will be validated and monitored to ensure integrity and authenticity of software and patches, and to apply encryption throughout the delivery process.

- 3.5 All Contractor access, including Contractor-initiated remote access and automated system-to-system access, will occur only through ERCOT's security gateways and firewalls, and will adhere to ERCOT security procedures.
- 3.6 All notifications required under this Section 3.6 must be sent to SupplierNotification@ERCOT.com.
