- review the proposed transaction(s) to ensure Oncor's continued financial independence from EFH, TXU Energy and Luminant;

- make a determination whether Oncor will be sufficiently capitalized based on the capital needs for providing transmission and distribution service in its service area and managing the risks associated with providing such service; and
- make a determination whether Oncor will have sufficient access to capital to permit it to provide adequate service to customers, taking into account the growth expectations for the Oncor service area and other factors that may result in future capital needs.

The contractor will provide PUCT Staff a written evaluation and analysis of the EFH transaction.

The contractor may also, at the discretion of the PUCT Contract Administrator, participate in the EFH change in control contested case proceeding(s) and any related proceedings at the PUCT. Work in the contested case(s) and subsequent compliance proceedings related to the EFH transaction will include, but is not limited to:
