

Electricity Facts Label (EFL)
TXU Energy Retail Company LLC
Medium Non-Residential POLR Service
Service Area – Texas-New Mexico Power Co
September 1, 2022

Electricity Price	<p>Your actual Average Price per kWh will depend on your usage and the pricing formula below:</p> <p>Large Service Provider (LSP) POLR Rate (in \$ per kWh) = (Non-bypassable charges + LSP customer charge + LSP energy charge + applicable LSP demand charge)/total monthly kWh used</p> <p>Where:</p> <ul style="list-style-type: none"> • Non-bypassable charges shall be all TDU charges and credits for the appropriate customer class in the applicable service territory, and other charges including ERCOT administrative charges, nodal fees or surcharges, reliability unit commitment (RUC) capacity short charges attributable to LSP load, and applicable taxes from various taxing or regulatory authorities, multiplied by the level of kWh and kW used, where appropriate. • LSP customer charge shall be \$0.025 per kWh. • LSP demand charge shall be \$2.00 per kW, per month, for customers that have a demand meter, and \$50.00 per month for customers that do not have a demand meter. • LSP energy charge shall be the actual hourly Real-Time Settlement Point Prices (RTSPPs) for the customer’s applicable load zone for the previous calendar year, ending December 31, multiplied by 125%, capped at 125% of the previous year’s LSP energy charge. • The minimum LSP energy charge in this service area is 18.20¢/kWh. • “Actual hourly RTSPP” is an hourly rate based on a simple average of the actual interval RTSPPs over the hour. • “Number of kWhs the customer used” is based either on interval data or on an allocation of the customer’s total actual usage to the hour based on a ratio of the sum of the ERCOT backcasted profile interval usage data for the customer’s profile type and weather zone over the hour to the total of the ERCOT backcasted profile interval usage data for the customer’s profile type and weather zone over the customer’s entire billing period. • RTSPP interval prices are published at www.ercot.com. <p>Except for price changes allowed by law or regulatory action, this price is the price that will be applied during your first billing cycle; this price may change in subsequent months at the sole discretion of TXU Energy.</p> <p>The POLR Rate formula above does not include facility relocation fees ordered by a municipality or other charges ordered by a municipality. For more information, see txu.com/municipalfees.</p>	
Other Key Terms and Questions	<p>Each month you will also be billed all taxes, including sales tax, and reimbursement for the state miscellaneous gross receipts tax as applicable.</p> <p>See Terms of Service Agreement for a full listing of fees, deposit policy, and other terms.</p>	
Disclosure Chart	Type of Product	Variable Price
	Contract Term	Month-to-Month
	Do I have a termination fee or any fees associated with terminating service?	No Early Cancellation Fee: \$0.00
	Can my price change during the contract period?	Yes
	If my price can change, how will it change, and by how much?	The price applied in the first billing cycle may be different from the price in this EFL if there are changes in TDU charges; changes to the Electric Reliability Council of Texas or Texas Regional Entity administrative fees charged to loads; or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs that are outside our control.
	What other fees may I be charged?	See Service Charges and Fees Section of your Terms of Service Agreement for non-recurring fees.
	Is this a pre-pay or pay in advance product?	No

Disclosure Chart	Does the REP purchase excess distributed renewable generation?	No	
	Renewable Content	This product is 6% renewable.	
	The statewide average for renewable content is	29%
